Living on the Leading Edge of Design and Technology

From products that perfectly combine design and technology  
to overall kitchen and bathroom solutions,  
KOHLER brings a gracious living to every customer

A singular level of exceptional quality. It's the guiding principle that Kohler Co. has been founded upon. Because of this commitment, we are constantly making breakthroughs, from single sanitary products to overall kitchen and bathroom solutions. KOHLER continuously enriches its product line, integrating outstanding design, innovative technology and creative artistic inspiration.

KOHLER has long been one of the most recognized brands around the world. In 2016, Fortune Magazine named Kohler one of the "25 Most Important Private Companies," citing KOHLER'S "highly influential" impact on kitchen and bath design.

# BATHROOM FAUCETS

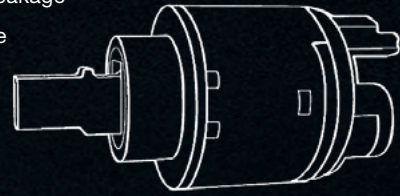

Why does a KOHLER faucet make your space so special?

The infinite creativity of KOHLER designers results in diverse faucets styles — whether trendy, classic, contemporary or minimalist — each style boasting its own distinctive personality and dignity. We can admire their lustrous colors and Vibrant PVD finish while enjoying the smooth, comfortable operation of European-made ceramic valves — features that make every KOHLER faucet a timeless creation.

## Ceramic disc valves

- European imported valves with extraordinary quality
- Solid ceramic material ensures durable performance
- Passed 1,000,000 times life cycle test without leakage\*
- Smooth cartridge design brings silky experience

\*Kohler Internal testing numbers for reference

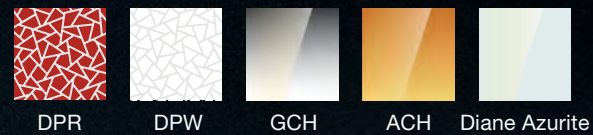

## Finish with confidence

Vibrant finishes, passed more than 48 hours acid salt spray test, exceeds industry standard of 24 hours.  
Easy-to-clean coating with unusual finish technology.

## Innovative material and technology

PVD coating offers more than 10 choices of finishes.  
Strayt collection offers a unique blend of both Western and Chinese style.  
Decorative collection applies unusual material to express the purity of water.

DPR DPW GCH ACH Diane Azurite

## Multiple choices of aerators

7 degree adjustable aerator helps to reduce splashing; silicon material brings easy cleaning experience.  
Auto-clean aerator automatically removes the scales to ensure a more smooth water flow.  
Easy-to-change aerator, able to be changed simply with a coin.  
Eco flow aerator provides larger water coverage, meets the water-saving standard.\*

BATHROOM FAUCETS

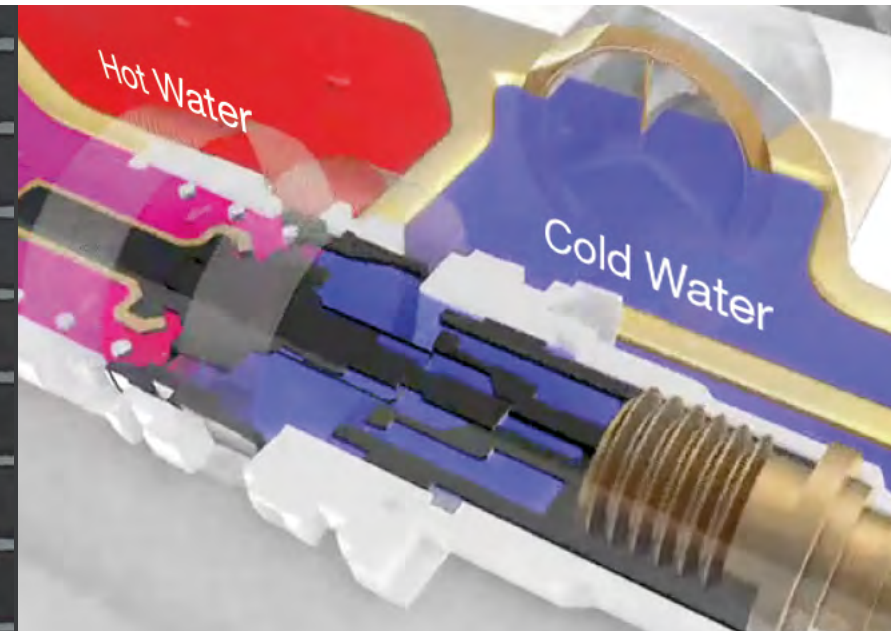

# SHOWER PRODUCTS

KOHLER defines 'showering experience'.

What makes for a great shower — is it water temperature, water flow or the feel of water on your skin? A truly comfortable bathing experience comes from thoughtful considerations of all these aspects. KOHLER's thermostatic valve ensures a comfortable water temperature for your shower, constantly maintained at your preferred setting. Our revolutionary Katalyst Air technology infuses each drop with air, guaranteeing plump, soft water drops that feel like natural rain and dew on your skin. As for the water flow, you can choose from a variety of modes to customize your shower water flow just the way you like it!

## Thermostatic Valve

### Precise Temperature Control

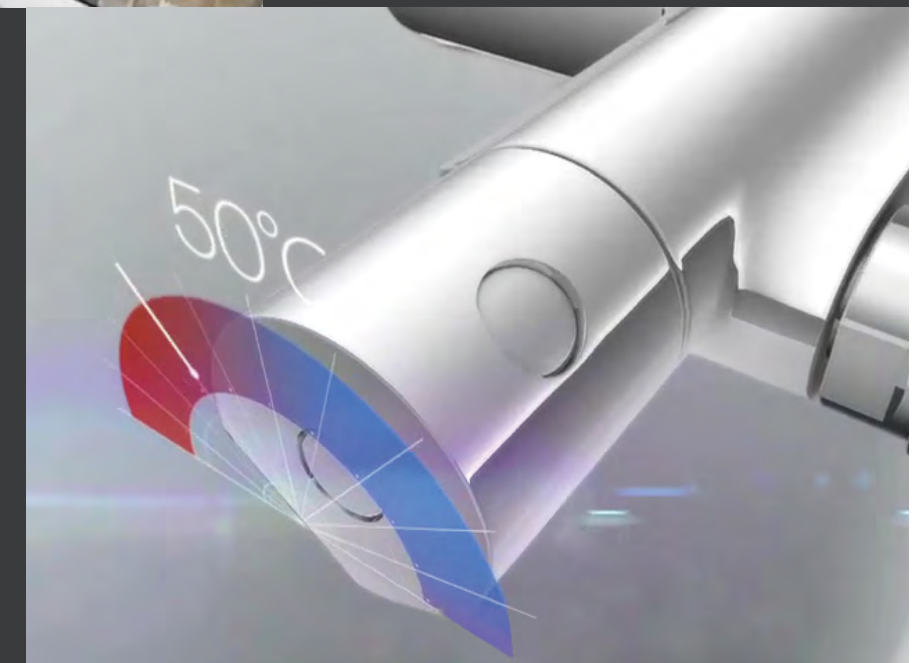

Parafin Valve brings immediate reaction to cold and hot inlet water change, protects against water temperature fluctuations at 0.4°C within 0.2 seconds\*

\* Kohler internal test for reference

SHOWER  
PRODUCTS

### Maximum Temperature Limit

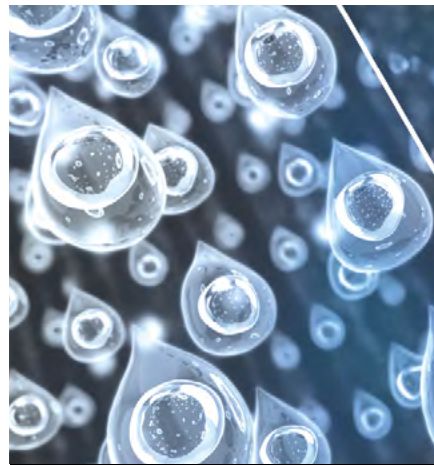

Automatically restricts water outlet to prevent scald under extreme situations

### Premium Material

Imported thermostatic valves passed 1,000,000 life cycle test\*. Life long warranty under normal condition.

\* Kohler internal test for reference

### Katalyst air-induction technology

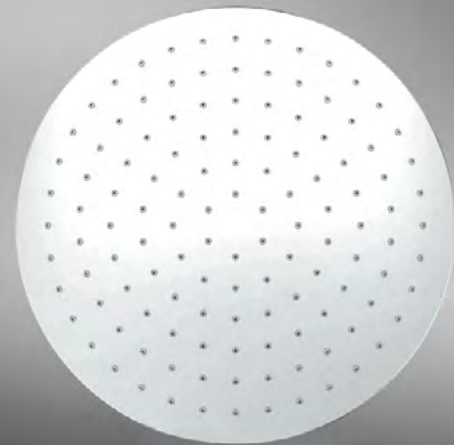

Inducting up to 50% air from the top of your showering products, effectively saves water by 50%\*

\* Kohler internal test for reference

### Optimized nozzle design

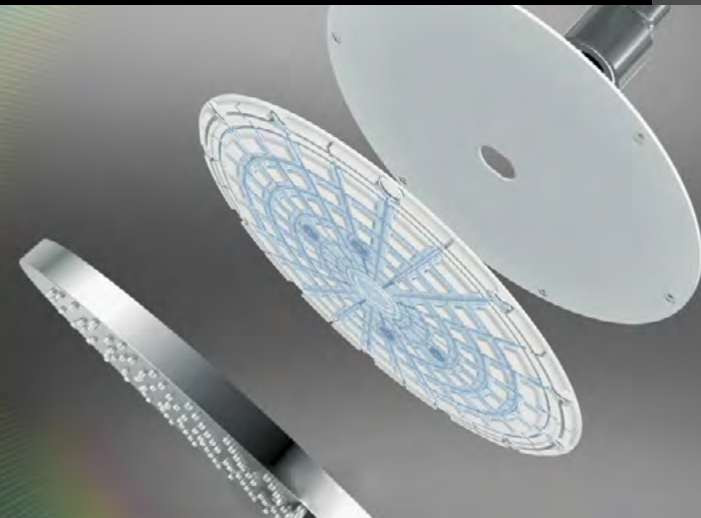

Scientifically designed nozzle allocation with optimized water coverage and comfort to ensure the best showering experience.

1.3mm nozzle brings bigger water drops with less water by mixing in air

### Advanced internal structure

Upgraded waterway distribution ensures better mixing of water and air, reducing residual water  
More robust structure by adding hidden screws and reducing exposed ones on the back plate

### Non-dripping design

Apart from internal structure, self-levelling technology is also applied on showerheads to reduce residual water

## Katalyst+ Showerheads

Drenching your showering experience with Katalyst technology

## Real Rain

Real Rain overhead shower panel is designed with 775 nozzles on a sleek silicone surface, to replicate the gentle droplets and the angles at which a natural summer rain falls.

AIRFOIL™-XINYUE Shower Panel K-45219T-7-CP

**Luxury** AIRFOIL™-XINYUE Showering

In a contemporary and minimalist design, the Airfoil shower panel with body sprays and handshower creates an extraordinary showering experience reminiscent of showering under a beautiful, energizing waterfall. Featuring Katalyst™ air-induction technology that infuses two liters of air per minute into the water, the result is complete showering coverage with full, heavy water drops. In addition to the panel, other options include wall-mount and ceiling-mount Airfoil showerheads.

Premium Shower Column

Mounted to existing plumbing, a KOHLER shower column turns your shower into a spa-like retreat without needing to go behind the wall to reroute plumbing or change out the valve. Pair your shower column with compatible showerhead or rainhead and handshower from a wide array for a signature KOHLER experience.

Premium **MODULO™**

Inspired by carefully considered shower upgrades, the Modulo valve system is a platform that makes it simple to install a variety of valve configurations into a range of wall types and showering options, to give you the ultimate in personalized showering. Choose the valve that will create the showering experience you want — from a basic shower to a home spa experience — combine it with a stylish trim option and then install it in an arrangement perfectly suited to your needs. By starting with the Modulo valve system, you open up a world of KOHLER showering possibilities.

Basic EXHALE™ Shower Filter

To restore urban shower water to its natural pure state, we introduce the Exhale Shower Filter, to hydrate skin when showering. The Exhale Shower Filter can effectively remove impurities and harmful substances from water, such as residual chlorine and heavy metal to bring you a fantastic showering experience for exceptional skin and hair care.

EXHALE Shower Filter  
K-R72914T-CP

- Filters thoroughly and prevents scale buildup
- Indicator tells you when to replace the easy-to-change filter
- Simple, elegant design compatible with any shower system

EXHALE Shower Filter Replacement  
K-R75751T-NA

- Prevents scale buildup for better health

# SENSOR FAUCETS

Add more brilliance to commercial space.

Whether it's design, color or performance, KOHLER always offers discerning choices for restrooms in commercial space. Multiple flushing options combine with unique automatic sensors to provide a convenient, hygienic system for commercial restrooms. Want to make your commercial restroom space look more artistic or trendy? Start by choosing a KOHLER sensor faucet!

## Invisible Sensor and Water-Saving

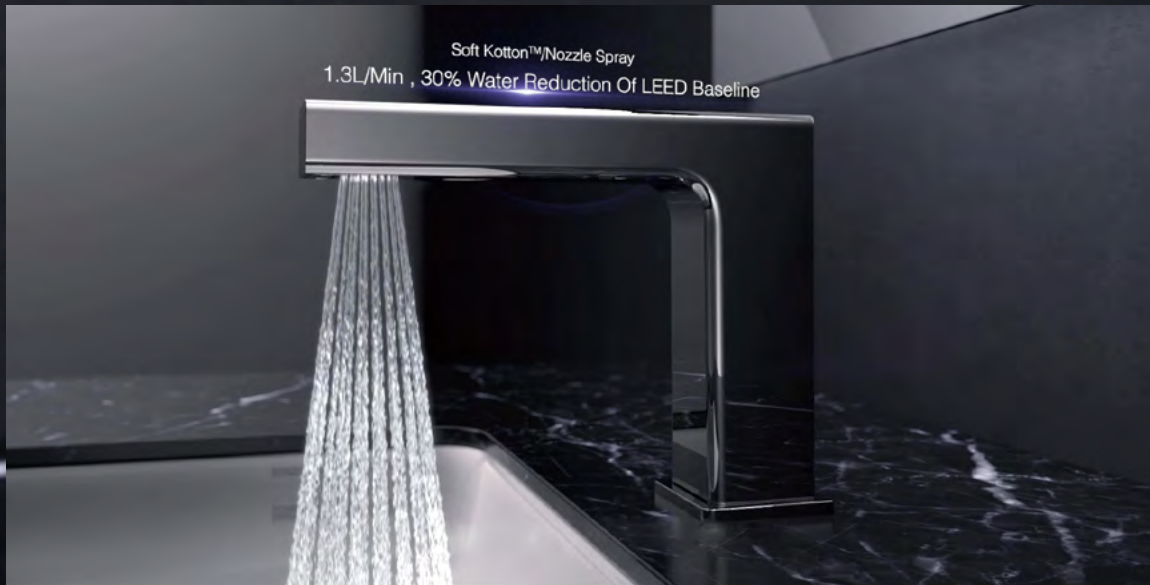

### Invisible Sensor Technology

Hidden sensor inside the spout, brings consistent and precise experience

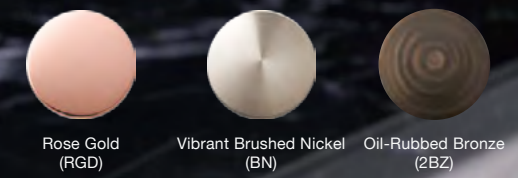

### Water Saving Technology

Saving water without sacrificing the performance, 30% lower than LEED standard

### Finish Options

# BATHROOM ACCESSORIES

Far more than a casual afterthought, today's innovative line-matched accessories by KOHLER have the sophistication and functionality to inspire an entire aesthetic. Moreover, they showcase your distinctive style, imagination and unique ability to achieve the exceptional. Today, more than ever, KOHLER accessories are taking personalization in the bathroom to an entirely new level.

### Vibrant PVD Coating

Vibrant Gold and Silver finishes bring an exquisite elegance to your bathroom. The new Vintage Black coating complements the Devonshire series to create a classic, nostalgic presence. The Rose Gold finish introduces an understated luxurious ambience to your bathroom. Polished titanium silver is the look of the future with its silver grey matte color. Trending in the world of fashion, it's becoming the finish of choice.

### Convenient "Add On" Installation

Thanks to a strong adhesive that has been certified through rigorous testing and that can be removed without damage to your walls, accessories can be easily installed without drilling holes.

\* IP certifications are grades of protection against dust and against the penetration of liquids into the wiring device as per the standard established by International Electrotechnical Commission (IEC)

# KITCHEN FAUCETS

## Classic, lifetime design

The design of a faucet intended for a hectic kitchen space must give primary consideration to practical use. Close cooperation between designer and engineer guarantees not only the reliability and safety of KOHLER faucet materials and craftsmanship, but also offers easy operation and cleaning. Practical concerns aside, a kitchen faucet should also add just the right eye-catching touch to highlight your smart but trendy kitchen.

Define new standard for your kitchen well-being from the origin

### Strictly controlled 17 heavy metals

Kohler kitchen faucets are made with environmentally friendly materials that have been certified with GB 18145-2014, U.S. AB 1953, NSF61 and many other standards

\*GB has regulations on the leach test of a certain product, which does not restrict the metal content of raw material as AB1953 does. AB1953 has a statutory requirement of lead content no more than 0.25% under weighted average, which eliminates health concerns from the very beginning

#### Lasting Finish

2-4 times durability\* to GB standard resisting corrosion

\*According to Kohler standard 48-96 hours salt spray test

\*GB18145-2014 requires 24 hours salt spray test

#### Ceramic Valve

Life long warranty under normal using condition\*

\*according to U.S. testing standard

\*life long warranty without purposely factors

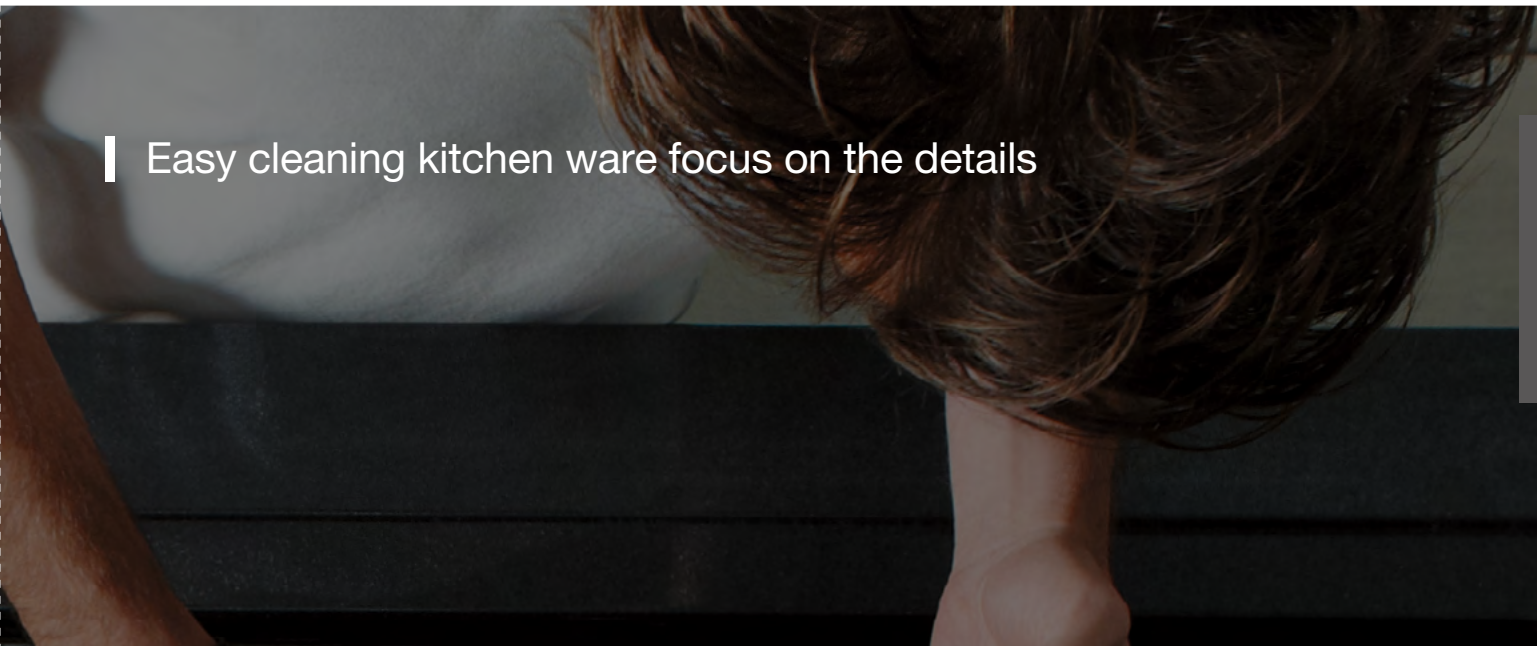

### Effortless Control

### Flexibility and Durability

Flexible hose and pullout spout rotate freely to get to every corner of your sink without leakage.

### Easy cleaning kitchen ware focus on the details

### Easy-clean

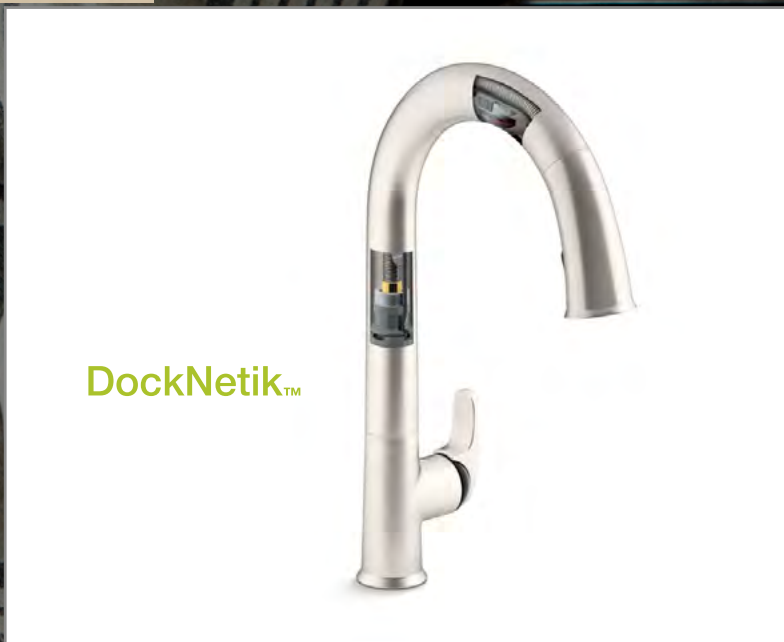

### Soft Spray

BerrySoft™ spray is designed for cleaning vegetables and fruits.

### Magnetic Docking

The Gonzalez sensor faucet uses the DockNetik™ system with internal magnets for quick, exact and convenient placement of the faucet head.

DockNetik™

### Powerful Spray

Sweep™ spray is designed for cleaning dishes and bowls.

### Hands-Free Operation

KOHLER touchless kitchen faucets free your hands so you can speed through cooking and cleanup tasks while enjoying a cleaner, more hygienic kitchen environment. The faucet's intuitive Response™ technology is in tune with your every move: a simple wave of your hand — or an object such as a pan or utensil — turns it on or off. The sensor is precision-designed to provide quick response and reliable operation every time when you're working in the sink area.

# *Kitchen and Bath* Water Solution

The KOHLER Water System ensures that your family's water is pure and safe for all the uses in your home - drinking, cooking, bathing, grooming. Your entire house can be equipped with KOHLER products that will deliver safe water for your kitchen and bath, from the time water enters your house to the time it comes out of the tap.

## First choice for family use

Toobi™ pre-filter series

### Advanced Material low lead content

Kohler Toobi pre-filter is certified with SGS (a CMA certified org.) with a high standard applying food class safe materials

#### Kohler standard

Lead content  $\leq 0.08\%$

Leach volume  $< 0.001\text{mg/L}$

VS

#### GB standard\*

Lead content  $\leq 0.5\%$

Leach volume  $< 0.01\text{mg/L}$

\*Standard code: <GB/T 5231-2012>

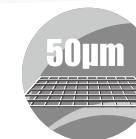

**SGS**

#### TIPS

SGS is shorten for Société Générale de Surveillance S.A., is a multinational company headquartered in Geneva, Switzerland which provides inspection, verification, testing and certification services.

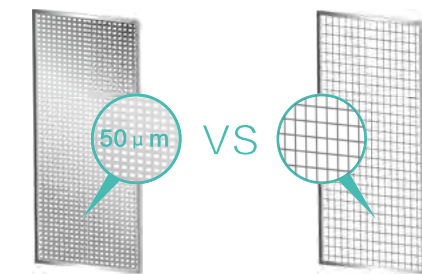

**MA**

CMA is shorten for China Meteorology Accreditation, is a mandatory recognition for inspection agencies(labs) by Chinese government. The agency recognized by CMA is legally affective in providing trading certification, test results, quality evaluation.

### 50µm filter net safe pre-filter

Effectively removes sand, rust, gel, moss in the water

Kohler stillness filter

Normal flexible material filter

### 3 steps to deep cleaning

STEP1:  
turn down blowdown valve

STEP2:  
rotate transparent body

STEP3:  
turn up blowdown valve

## Protect your water consuming appliances

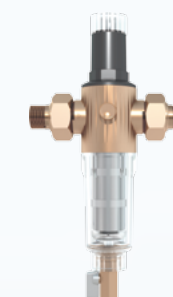

### Prefilter

iF award is regarded as one of the most important design competitions worldwide and are recognized as a symbol of design excellence around the world. Which is judged by renowned experts, with the best of them receiving an iF seal of outstanding design quality. The best of the best are awarded with an iF gold award, known as the "Design Oscar".

Kohler Toobi prefilter has won iF Design Award 2016 for its premium design, concept of environmental-friendly and excellent performance.

### Toobi™ pre-filter

Pressure guard

Basic

Product number	96024T-PF200-Q73	96024T-PF100-Q73
Main size	170(W) x 330(H) x 100(D)	160(W) x 235(H) x 60(D)
Net weight	1.6	1.2
Standard diameter	DN25(0.6inch)	DN25(0.6inch)
Optional diameter	DN32(1inch)	DN20(0.4inch)
Filter precision	50 µm	
Flow rate	1.8 M <sup>3</sup> /h	
Total rated volume	100 M <sup>3</sup>	
Compatible water quality	Municipal water	
Working pressure	0.1 MPa ~ 0.4 MPa	
Environment temperature	5°C ~ 38°C	

## Soft water brings healthy life

Aleutian™ water softener series

### Food class polyester resin

Kohler water softener applies food class Rohm and Hass polyester resin, which is certified by U.S. FDA, Effectively facilitates the chemical reaction to eliminate Calcium, Magnesium and soften the water.

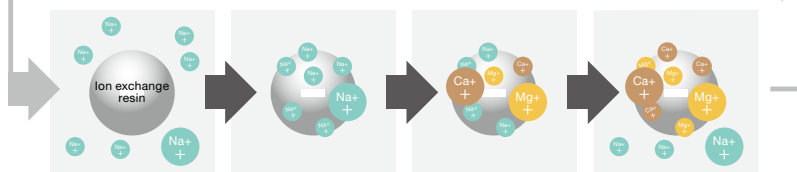

#### TIPS

Rohm and Hass polyester resin is regarded as the leading resin in the field with much more exchange capacity to adhere Calcium and Magnesium ion.

### Protective extends lifespan

Regenerate water softening capacity with hypersaline water by replacing Ca+, Mg+ in the dynamic balancing process.

Polyester resins are unsaturated synthetic resins formed by the reaction of dibasic organic acids and polyhydric alcohols.

The Na+ ion carrying positive charge is attracted by polyester resin to prepare for the softening process.

Ca+, Mg+ ions carrying positive charge are easily attracted by polyester resin, thus will replace the Na+ in the water.

With increasing Ca+, Mg+ accumulating on the polyester resin, the capacity declined out of fatigue.

### Self-regulating ensures soft water is always available

Economic and green, dual regenerating system saves the saline and water by avoiding water consuming peak and regulates the cycle according to your own habit.

Self-regulating

### Holiday mode environmental friendly

Easy configuration on holiday mode to save resin lifespan when you are not around.

Better water experience  
Soft water

## New Drinking Life

Kitchen Water Filtering & Heating System STANCE™ Series

Kitchen Water Filtering & Heating System STANCE is an integrated appliance for water purification and heating. You can precisely control the temperature and amount heated, for a healthy and convenient drinking experience.

**Multi-stage Filtration**  
Double carbon rods, reverse osmosis filtration, UV sterilization on dispenser.

**Easily set desired temperature and amount**  
Say goodbye to stale boiled water; freshly boiled water is ready in an instant anytime.

**Lock in nutrition and taste**  
Presets deliver the best taste:  
40°C for Milk Powder, 85°C for Green Tea, 95°C for Coffee

# 25°C / 500ml

Replenish the body's needs

After getting up or exercising, drink a cup of warm water.  
Awaken the body to replenish moisture.

KITCHEN AND BATH  
WATER SOLUTION

# 40°C / 120ml

Lock in Health and Nutrition  
Brewing milk powder for your baby

At the right water temperature ensures the best nutrition  
And guards your baby's health.

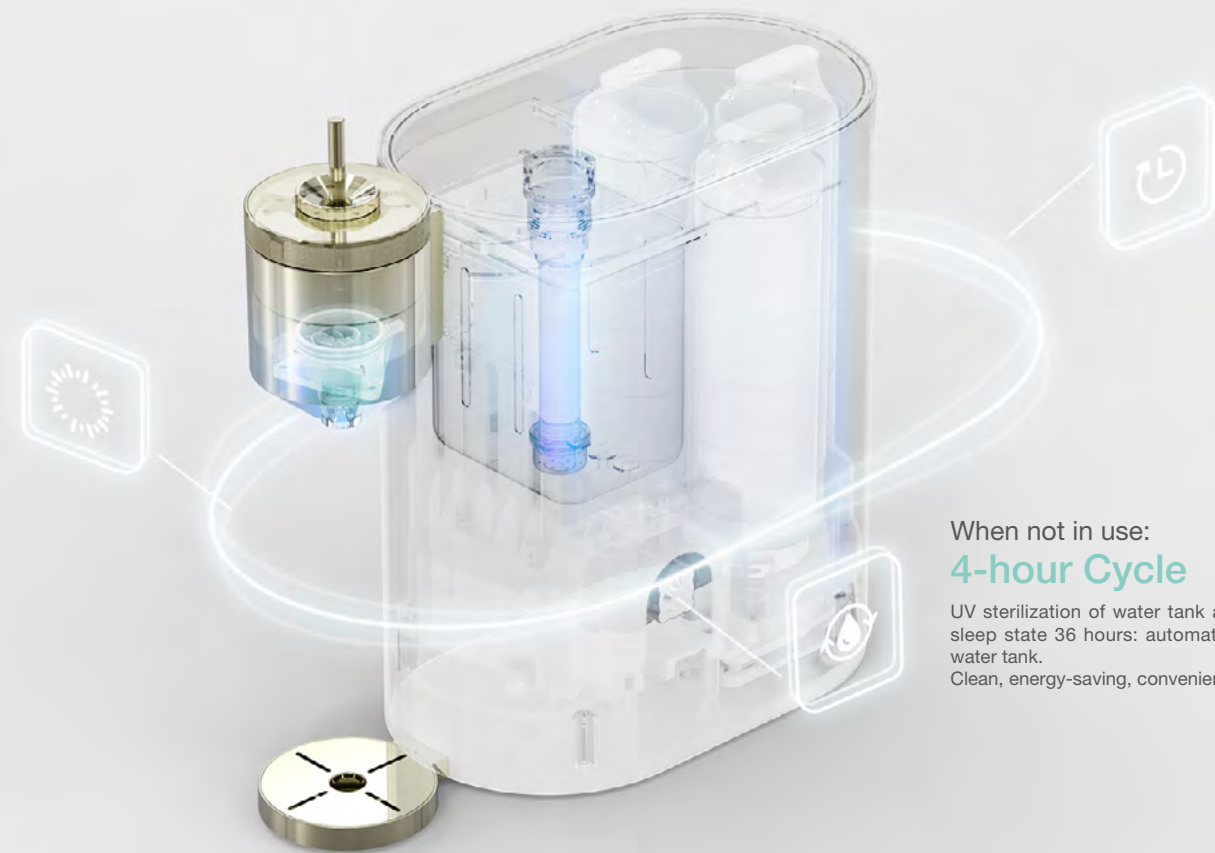

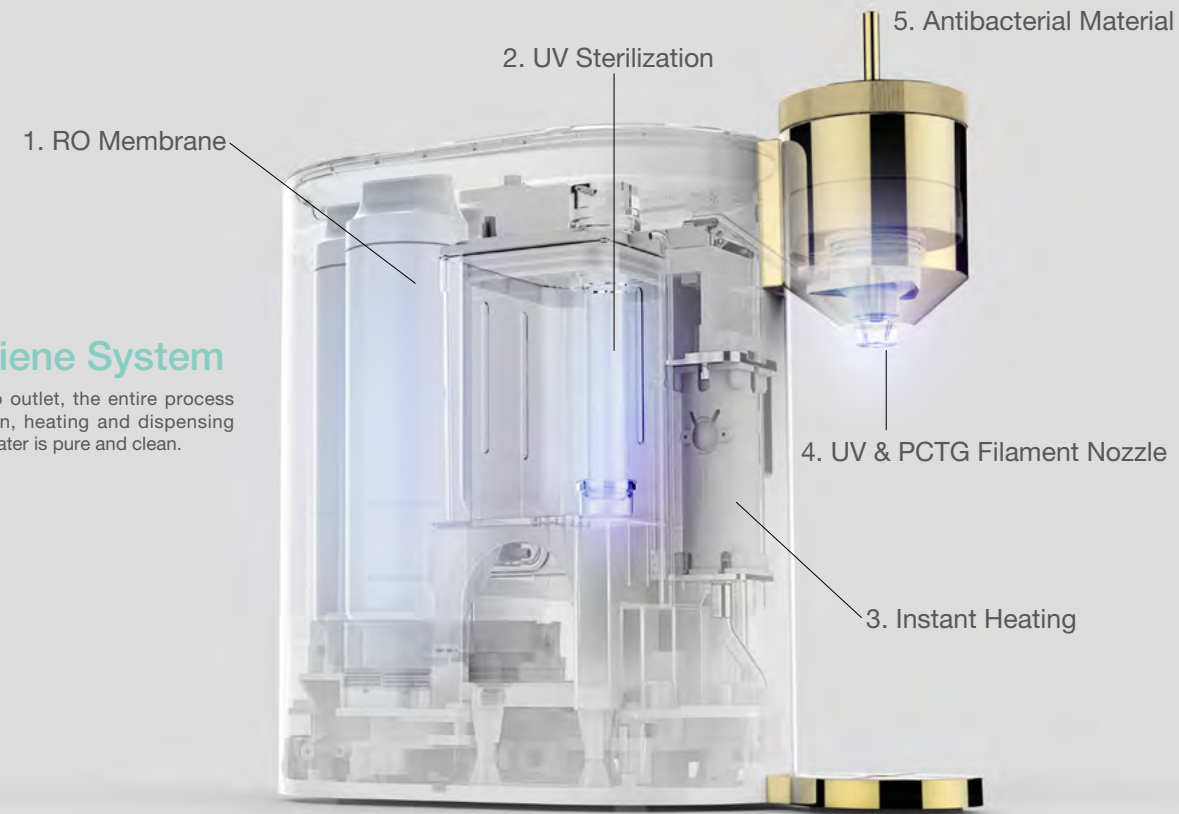

# 85°C & 95°C / 240ml

A Healthy Life  
Pure water helps release natural taste and smell

The sweetness of green tea and the fragrance of coffee.  
Appreciation does not need to wait.

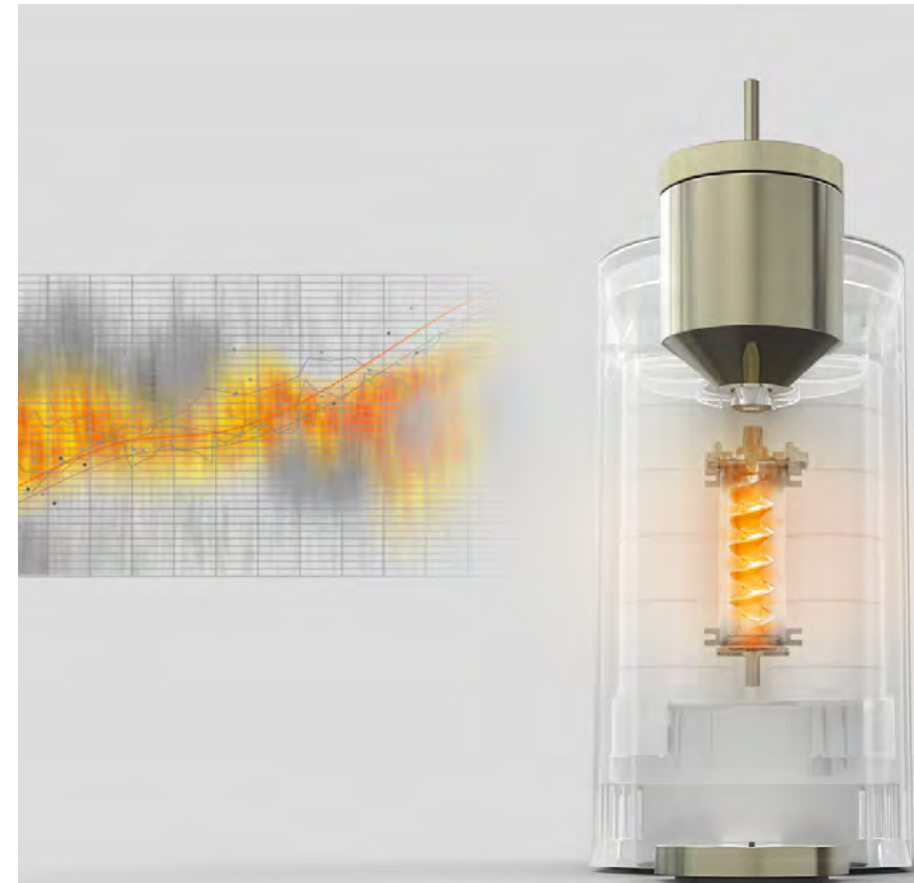

### Whole Hygiene System

From the water inlet to outlet, the entire process of filtration, sterilization, heating and dispensing ensures your drinking water is pure and clean.

### Smart Heating Technology

Intelligently matches the best flow rate and optimum heat for the selected temperature every time.

## Filter Pitcher that can sterilize

Kohler Pitcher Symbol™ Series

### Ultrafiltration sterilization, Ensures pure and carefree drinking water

#### Triple purification without residue

Activated-carbon from coconut shells and ultrafiltration membrane effectively removes impurities, residual chlorine and bacteria.

#### Fresh, pure water at your fingertips

Each filter cartridge can purify 200 liters of tap water to meet the three-month drinking needs of a family of three\*  
(\*Based on an estimated 800ML/person/day)

#### Ergonomic design

Light and convenient, easy to lift and move  
Smart reminder to replace the filter  
Separate water channels prevent secondary pollution

#### Hermetic seal design

Prevents mixing of purified and unsterilized water  
Ensures water quality

#### Light and convenient

Easy to lift and move

#### Easy to replace filter

Round filter design is easy to remove  
Easy to replace without tools

#### LED displays filter life

Easily check status of filter  
Timely reminder to replace filter

#### Transparent tank

Easy to clean  
Easy to see the water level  
Easy to use

### Small but great for health and convenience

#### Ultrafiltration technology (PU type)

The Symbol Pitcher series is a water purifier designed to use tap water as the water source. Using ultrafiltration technology based on KORTECH's natural gravity filtration system, its innovative hydrophilic materials and triple filtration system effectively remove bacteria, organic matter and residual chlorine caused by old urban water pipes or pollution and other harmful substances from the secondary water supply tank. The unique composite technology ensures the long-term safety of the water purification system.

First, water passes through a dense mesh filter made of non-toxic and odorless Polypropylene material, which can effectively remove floating particles in the water, such as rust and sand, and protect the core PU filter unit as well.

Second, the water passes through activated carbon with a high iodine number, which traps organic contaminants such as volatile phenol, chloroform and carbon tetroxide and rapidly absorbs residual chlorine to improve taste.

Third, the water passes through a filter made of hollow fiber-membrane wire with very fine pores, which retains the beneficial minerals in tap water but further intercepts bacteria, suspended solids and other impurities in the water, to ensure pure water quality.

Carafe™ Point-of-user water filter

Bringing purified water to your eyes

1 Records every drop of water  
Time, flow, TDS volume under supervision

TDS instant display records every single drop of water

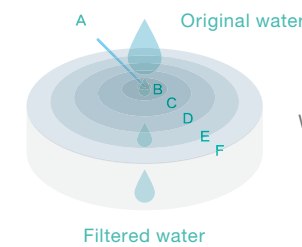

Status indication informs you of lifespan and malfunction

2 Tank-free brings freshness and effectiveness  
With top quality DOW RO filter

No contained water, more freshness  
High speed water outlet

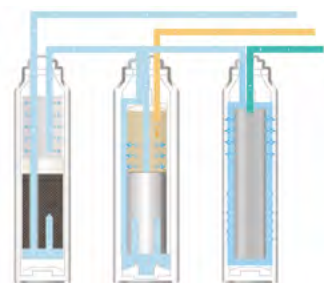

Waste water rate lowered to 1:1

## Intelligent cartridge

### 3 Simplified spacing Compound cartridge space saving

1. Kohler 3-level integrated cartridge
2. compound cartridge provides easy installation, and prevents risk of leaking
3. space saving

### 4 Less noise, less leaking

**Spring structure**  
reduces noise, protects the pump

**Integrated waterway**  
integrated internal structure reduces risk of leaking

**Sealed cartridge design**  
reduces secondary pollution

## Minimalist Design

Tankless design brings freshness  
Steady and screw-free  
Compound cartridge for space saving

Concentrated in 149 mm dimensions  
Honored with IDEA, Reddot design awards

\*Coordinated efficiency comparing with other filter structure  
\*\*TDS indicates the dissoluble capacity in the water

## Q&A

### Why is it not recommended to drink the tap water directly?

City water may be safe enough, but there is still secondary pollution during transportation from the water supplier. Chlorine, the key substance the water supplier uses as disinfectant, can remain in the water.

### Is bottled water safe?

Bacteria and nitrites can multiply easily in bottled water if we do not clean the dispenser or change the bottle frequently.

### Does boiling water make it safe to drink?

Most bacteria in water can be killed by boiling it, but there may still remain composite particulates, heavy metals and other impurities which can be harmful to health.

### Why does heating purified water produce cloudy water?

Purified water contains minerals such as calcium and magnesium which precipitate as crystals upon heating. To improve the taste of water that is heated, you can install pre-softening filters which reduce water hardness.

### 3-6 Month Replacement Cycle

Filter replacement cycle varies depending on household water quality, duration of use and options selected.

### What factors affect filter life?

The duration of use, options selected and household water quality affect filter life. Beeps and flashing lights from the water dispenser will indicate when it is time to replace the filter.

### Annual Replacement Cycle

Filter replacement cycle varies according to household water quality, duration of use and options selected.

It is recommended that the Kohler PP cotton filter be pre-installed before using the water dispenser in the case of poor water quality. This will extend filter life.

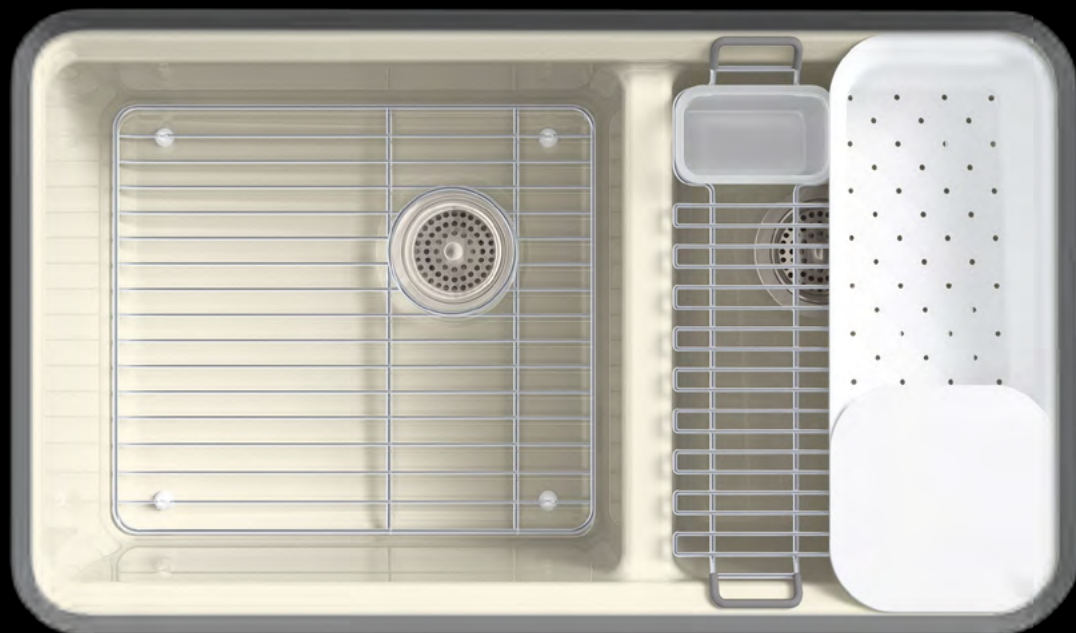

### 3-6 Month Replacement Cycle

Pre-installed PP cotton filter requires regular replacement. Replacement cycle varies according to household water quality, duration of use and options selected.

# KITCHEN SINKS

Used for both preparation and cleanup, sinks truly are the workhorses of the kitchen. But that doesn't mean they can't be beautiful. KOHLER kitchen sinks provide outstanding versatility in terms of colors, shapes, sizes, materials and multiple configuration options. They also deliver exceptional durability, with heavy-duty cast iron, stainless steel and fireclay composition.

## KOHLER® Enameled Cast Iron

Nothing else has the solid presence and statement-making look of KOHLER enameled cast iron. The rich, colorful finish makes its own bold statement as it complements your countertops and cabinetry. No other material offers the character and craftsmanship of KOHLER enameled cast iron. Its rich finish and lasting presence make a bold statement.

### STRENGTH

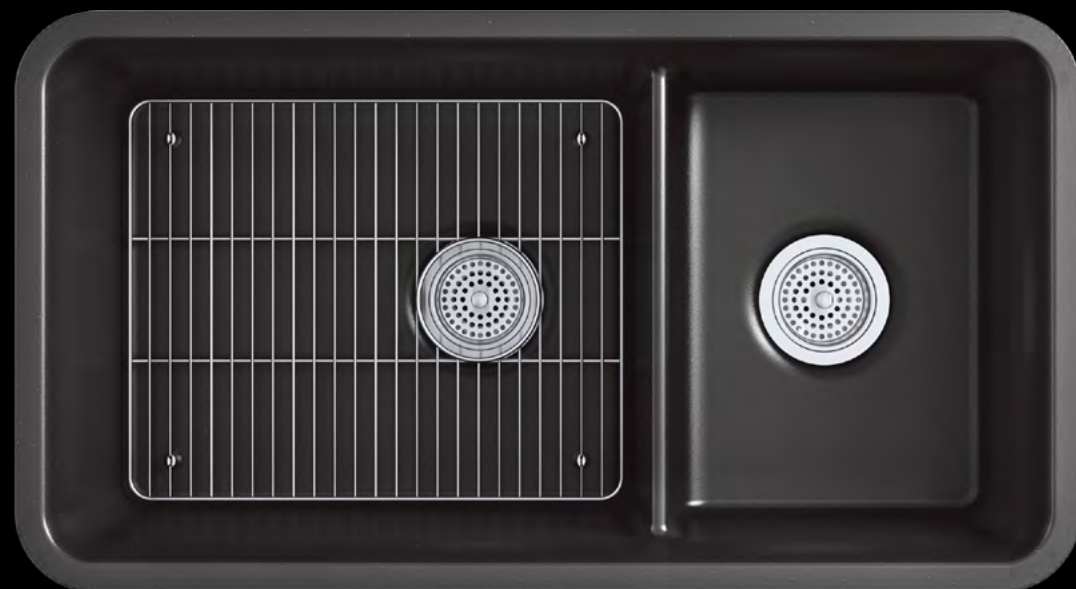

KOHLER enameled cast iron sinks withstand whatever your family dishes out, from heavy pots to searing skillets.

### STYLE

Go bold with deep hues, be subtle with pale tones or choose a finish that adds dimensional character.

### SOUL

Made in Kohler, Wisconsin, our cast iron sinks embody over 145 years of KOHLER craftsmanship.

## Stainless Steel

Stainless steel is eminently practical and extremely versatile. It's resistant to staining and easy to clean. Let your style shine with more than 120 stainless steel sink shapes, sizes and designs. It complements any kitchen and is a favorite of enthusiastic cooks and designers alike.

### DURABILITY

This classic, durable material lives up to its name. Hot pans won't hurt it, and it's less likely than harder materials to damage delicate dishware that may slip from your grip.

### CLEANABILITY

Stainless steel is rust- and stain-resistant and easy to clean; just give it a quick swipe with a sponge.

### SOUND ABSORPTION

Every KOHLER® stainless steel kitchen sink features SilentShield® sound-absorption technology which significantly reduces noise from clanging dishes, running water and garbage disposals.

### PRESERVE® SERIES

Our line of Preserve stainless steel sinks features a unique scratch-resistant coating that offers even more protection to keep your sink looking newer longer.

## Neoroc® Composite\*

With a smooth matte finish that works beautifully with a variety of countertops, the rich, dimensional color of Neoroc adds warmth and style.

### RICH COLOR:

Neoroc composite sinks offer a warm matte Finish designed to complement countertops with a solid color throughout.

### ROCK-SOLID DESIGN:

Exceptionally durable, Neoroc absorbs the impact of falling cookware and is scratch-, stain- and chip-resistant. Hot pots and pans won't damage the surface.

\*KOHLER kitchen sinks are backed by a Lifetime Limited Warranty.

| Easy Clean, Easy Life

#### CLEANABILITY & HYGIENE

Stainless steel is rust- and stain-resistant and easy to clean; just give it a quick swipe with a sponge. Some models are even available in oil-resistant finish with enhanced performance; Quickflow Dual Strainer and 50 mm anti-bacterial trapway significantly improve the hygiene of the basin.
